

Shore Parent Duties

Before (3:45-4 pm)

1. Turn on heat and lights (if needed).
2. Put out the attendance sheet with pen or pencil and make sure all kids sign in (note: all forms, including attendance sheets, are in the white HS Sailing notebook. If no forms in notebook, please print off copies from the [WSC High School Sailing Handouts](#) web page).
3. Direct kids to keep their gear tidy (all gear stowed in bags; all bags stowed on or under front bench—not on tables!)
4. Help with rigging boats if needed. Keep the kids moving and on task.
5. Log and report any boat problems and issues (missing parts, etc).
6. Be sure everyone is dressed properly before going out (including PFDs!).

During (4-6 pm)

7. Keep an eye on wind and weather conditions on the water. Monitor clubhouse radio for messages from coach boats and be ready to assist incoming sailors.
8. Help cold and wet sailors. Encourage warm liquids (hot cocoa) and hot showers (in upper lot dressing rooms).
9. FYI: Emergency Release forms and contact info for all sailors are in a folder above the Sailing School cabinet. First aid kit is on the counter or in the cabinet.

After (6-6:30 pm)

10. Help with de-rigging (keep kids on task!). It's the Dock Captains' responsibility to make sure all boats are properly put away and all gear picked up and properly stowed. Make sure they are doing their job!
11. Put hot cocoa away. If empty, email wshighschool@googlegroups.com and ask for donation of new container.
12. Make sure kids clean up after themselves. Check to see that all dirty cups, dishes, and silverware have been cleaned.
13. Get kids to pick up trash. If trash cans are full, have them empty the bags into dumpster in parking lot.
14. Check to see that all gear is collected. Put leftover gear in lost and found bin under kitchen counter. Send an email out to the wshighschool@googlegroups.com.
15. Make sure all life jackets are properly stowed and locked up.
16. Make sure heat, stove, oven, and lights are turned off.
17. Lock buildings—both the clubhouse and the boat house where lifejackets are stored.
18. Make sure everyone is out, then lock all gates and close entrance gate.

If you have questions or need further information, contact Kathy Lloyd at 503-984-8384 or cklloyd@q.com.
